

MILWAUKEE

GREEN ROOF PROFESSIONAL TRAINING

OCTOBER 26th-28th

The **Green Roof Professional (GRP)** training and accreditation program has supported the remarkable growth of the green roof industry in North America over the past ten years by serving as a comprehensive reference for those who design, install, and maintain green roofs.

Tuition includes course **Resource Manuals**, as well as the opportunity to hear from guest speakers within the local green roofing industry. Book before **September 26th, 2017 and save \$25 on each course!** Take all three courses and receive a free USB drive with course presentation materials for reference.

GREEN ROOF DESIGN & INSTALLATION

Thursday October 26th, 2017

This course introduces the latest information in green roof benefits, technical standards, products, and design and installation practices. Learnings also include how to stage installation, schedule projects, and coordinate on-site trades.

Tuition: \$524

GREEN ROOF WATERPROOFING & DRAINAGE

Friday October 27th, 2017

This course presents the characteristics of different waterproofing and drainage assemblies available in the marketplace, and offers detailed design solutions and implementation options.

Tuition: \$424

GREEN ROOF PLANTS & GROWING MEDIA

Saturday October 28th, 2017

This course explores the principles of plant physiology and soil sciences as they apply to green roofs, and establishes design, installation, and maintenance best practices for green roof vegetation and growing media.

Tuition: \$424
